

FDA Authorizes First Point-of-Care Antibody Test for COVID-19

What does this authorization mean?

This authorization means that fingerstick blood samples can now be tested in **POC settings** like **doctor's offices, hospitals, urgent care centers and emergency rooms** rather than having to be sent to a central lab for testing.

COVID-19 IgG/IgM POC RAPID TEST

Why authorize a Point-of-Care Antibody Test for COVID-19?

"Authorizing point-of-care serology tests will enable more timely and convenient results for individuals who want to understand if they have previously been infected with the virus that causes COVID-19."

COVID-19 IgG/IgM POC RAPID TEST

Benefits:

- Results in 15 minutes
- High accuracy
- Easy to use
- No equipment required

Features:

- Packing Size: 20pcs
- Sample: Whole Blood/Serum/Plasma
- Testing time: 15min
- Storage Condition: 2 °C ~ 30 °C

Packing Contents:

- Tests
- Disposable pipettes
- Sterile safety lancet
- Buffer
